

Associate or Assistant Professor – Immunology

The Department of Microbiology and Immunology of The Chicago Medical School, Rosalind Franklin University of Medicine and Science, located in the northern suburbs of Chicago, invites applications for full time, tenure-track appointment at the Associate or Assistant Professor level in Immunology.

We seek candidates to join a significant expansion of the Department in a newly built research building with state-of-the-art laboratories and facilities. Core resources include flow cytometry and sorter, confocal, live-cell and electron microscopy, animal facilities, and a structural biology and proteomics center.

Candidates must have a Ph.D. or M.D. degree (or equivalent) and strong training in immunology. Investigators studying innate immunity, host-pathogen interactions, mucosal immunity, cancer-related inflammation, and translational research potentials are particularly encouraged to apply.

Candidates at the Associate Professor level must have a currently funded research program and a track record of federal and/or other funding. Candidates at the Assistant Professor level should show evidence of productive research accomplishments and evidence of the ability to attract external funding. Candidates with currently funded research program are desirable.

Successful candidates will receive competitive salaries, attractive start-up packages and are expected to develop and maintain an externally funded independent research program and teach at the medical and graduate level.

The University encourages applications from individuals belonging to groups underrepresented in their field and those that can add new and valuable perspectives to the academic environment. We are also particularly interested in applicants with a commitment to mentoring and to increasing diversity in the fields of medicine, science and the health professions.

Applications should consist of a cover letter addressing the qualifications for the position, a curriculum vitae, statement of research interests, future research plans, copies of recent representative publications, and names and contact information of three or more references. Direct applications to <http://rosalindfranklin.peopleadmin.com/postings/9514>

Review of applications will begin immediately and will continue until the position is filled. The selected candidate is expected to start July 1, 2015.

Contact: Dr. Bala Chandran, Chair, Dept. of Microbiology and Immunology, The Chicago Medical School, Rosalind Franklin University of Medicine and Science.

Rosalind Franklin University of Medicine and Science is an Equal Opportunity/Affirmative Action employer and is dedicated to creating and fostering a diverse academic environment. We are especially seeking and encouraging nominations and applications from individuals belonging to groups underrepresented in their respective fields, as well as others who would enrich and add unique perspectives to the University.
