

### **Postdoctoral position— Immunosenescence**

A postdoctoral position is available for a highly motivated candidate having a strong background in immunology and 3-4 years of lab experience after completing the Ph.D. Our research projects explore the role of oxidative stress in immunosenescence using different mouse models. The successful candidate will have experience with flow cytometry, mammalian cell culture, animal work, and some knowledge in mass spectroscopy. Candidates must have good oral and written communication skills and must be able to work both independently and as part of a team. To apply, please submit a complete and up-to-date CV and the names and contact information of three referees to the following:

Laura Santambrogio, M.D. Ph.D.  
Professor of Pathology, Microbiology and Immunology  
Albert Einstein College of Medicine  
Forchheimer 140  
1300 Morris Park Ave.  
Bronx, NY 10461
