

Postdoctoral Fellow

The laboratory of Gail Bishop at The University of Iowa (<http://www.healthcare.uiowa.edu/labs/bishop/>) is seeking a postdoctoral fellow to join the lab team working on mechanisms of lymphocyte activation in normal immunity and immune-mediated disease. Current projects focus upon the roles of the signaling molecule TRAF3 in the functions of T and B lymphocytes, and B cell malignancies, and new approaches in cellular vaccines against tumors. Due to constraints of funding sources, candidates with US citizenship or permanent residency preferred. Interested candidates please send current CV, cover letter outlining experience and career goals, and names of 3 individuals who can provide references to gail-bishop@uiowa.edu. The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, national origin, color, creed, religion, sex, age, disability, veteran status, sexual orientation, gender identity, or associational preference. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. For additional information on nondiscrimination policies, contact the Office of Equal Opportunity and Diversity, (319) 335-0705 (voice) and (319) 335-0697 (text), 202 Jessup Hall, The University of Iowa, Iowa City, Iowa 52242-1316.
