

Research Scientist/Postdoctoral Fellow

Lukens lab in the Department of Neuroscience at the University of Virginia

The Lukens lab in the Department of Neuroscience at the University of Virginia is seeking to hire a highly motivated Research Scientist/Postdoctoral Fellow to investigate the immunological pathways that contribute to neuroinflammatory disease pathogenesis in multiple sclerosis, Alzheimer's disease, traumatic brain injury and models of CNS infectious disease.

Candidates must have a PhD or MD with a background in Neuroscience and/or Immunology, as well as have extensive experience in conducting independent research, preparing manuscripts and supervising research trainees. In addition, the candidate must have first author publications in peer reviewed scientific journals and possess excellent written and oral communication skills. The successful applicant should also be highly motivated, independent, and creative; and possess a strong work ethic and critical thinking abilities.

Please contact John Lukens at Jrl7n@virginia.edu to discuss this opportunity in person at the 2015 AAI IMMUNOLOGY meeting in New Orleans or to apply, visit <https://jobs.virginia.edu> and search on Posting Number 0615431.
