

Postdoctoral Position(s)
Laboratory of John T. Harty, Ph.D., at the University of Iowa

The lab works on T cell responses against viral (influenza), bacterial (*Listeria*) and protozoan (*Plasmodium*) pathogens with interests in the impact of innate immune system on adaptive immunity, molecular immunology and vaccine relevant concepts. See the following representative publications:

Cell Host and Microbe (2011). 9:451-462.
Immunity (2011) 34: 781-793.
Nature Immunology (2012) 3188-195.
Immunity (2013) 38:140-152.
Immunity (2013) 39: 939-948.
Journal of Experimental Medicine (2014) 211:105-120.
Journal of Clinical Investigation (2014) 24:1013-26.

Motivated candidates, with strong publication records and interest in using pathogen/animal models to probe basic aspects of immunity to infection are encouraged to apply. Specific attention will be afforded to applicants with experience in intravital imaging.

Interested candidates should send a cover letter, CV and the names/contact information for three references by email to john-harty@uiowa.edu.
