

Title: Postdoctoral Position

Location: New Haven, CT

Employer: Yale School of Medicine

Summary: Starting this summer, a postdoctoral position is available in the Kriegel Lab, Department of Immunobiology, Yale School of Medicine, to study autoimmune host-microbiota interactions in murine models and humans. The work will involve cellular and molecular immunology, next-generation microbiome sequencing, and gnotobiotics. Successful candidates should have a Ph.D., M.D., or equivalent degree, and ideally a background in immunology or microbiology. Interested candidates should email their CV including three references to [martin.kriegel@yale.edu](mailto:martin.kriegel@yale.edu). More information can be found at <http://medicine.yale.edu/lab/kriegel>.
